EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Immediately after the title, the following sentence has been inserted:

This application is a 371 of PCT/JP03/02715 filed 03/07/3003.

Specification

The objection to the specification has been obviated by the examiner's amendment above.

102 Rejections Withdrawn

The rejection of claims 1 and 3-8 under 35 USC 102(b), outlined in the previous Office Action, has been overcome by applicant's amendment. With respect to claims 3-8, the amendment cancels the claims. With respect to claim 1, the amendment narrows the claim with respect to the catalyst such that it no longer reads on the cited prior art.

Claim Objections Withdrawn

The objection to claim 2, outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment cancels the claim.

Allowable Subject Matter

Claim 1 is allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art remains the prior art of record. Applicant has amended the one remaining claim such that a particular set of catalysts is taught. The cited art neither teaches nor suggests this set of catalysts. Nor would it have been obvious to one of ordinary skill in the art at the time of the invention to modify the process of the prior art with respect to the catalyst in order to arrive at that of the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
